Jerome Haynes
Frontend Engineer

New York, NY | (332) 280-9092 | info.devrome@gmail.com | Linkedin | Github | Portfolio

SUMMARY

Software Engineer with strong frontend expertise and full-stack exposure, specializing in building scalable, high-performance web applications. Experienced with React, Next.js, TypeScript, and modern UI architecture, alongside API integration, testing, and database-driven features. Proven track record delivering production-ready software in agile environments and freelance settings.

WORK EXPERIENCE

Glassdoor - Front-End Software Engineer Intern, Remote
05/2025 – 08/2025
- Migrated core production UI modules to Next.js App Router using React and TypeScript, improving application scalability and long-term maintainability
- Developed and Shipped multiple user-facing features (Joined Bowls, Company Bowls, Careers, Careers Advice) used across employer profiles
- Integrated GraphQL APIs for efficient, type-safe data fetching and frontend state management
- Implemented automated unit tests with Vitest to increase test coverage and ensure maintainable, high-quality code

The Hero Company (via Upwork) - Jr. Developer (Frontend), Remote
03/2024 – 09/2025
- Authored and maintained 20+ responsive web applications using modern frontend frameworks, improving user experience and conversion flows
- Maintained site security and performance through database updates, SQL workflows, and SSL certificate management
- Utilized MySQL tools for data-driven frontend updates while supporting site reliability and optimization

Freelance Web Developer (Self-Employed), Remote
01/2018 – 09/2025
- Developed 15+ production websites and web applications using HTML, CSS, JavaScript, React, Tailwind CSS, and WordPress
- Achieved Top Rated Plus status and 100% Job Success Score on Upwork through consistent high-quality delivery and client satisfaction
- Implemented secure payment gateways, API integrations, and documentation to support business operations and long-term maintainability
